1/2" Sheathing

2 x 8 Framing

3/8" Drywall

Exterior Substrate

Sealant Bead Behind Mounting Flange

Sealant Bead Between Mounting Flange and Flashing

Vertical Section

Exterior

Interior

HEADER TO BOTTOM OF SLEEPER (RO)

1 3/8" extends past the framing to the exterior

1 1/2" sleeper width does not take into account pans, membranes, and sealant provided by others.

10 1/2" sleeper depth takes into account framing towards the interior and extending past the exterior framing. The 1 3/8" extension is needed to support the outer track.
